EDUCATION

Indian Institute of Information Technology (IIIT), Sonepat
B.Tech, Information Technology   CGPA : **8.7**

S G S M S M N N J COLLEGE KHAJEDIH MADHUBANI
12th Grade   *2017 - 2018*

M R R P HIGH SCHOOL BHATCHAURA
10th Grade   *2015 - 2016*

EXPERIENCE

Modgenics Technology
Software Developer Intern   *Jan 2023*

- Developed frontend from designs using React.js. Common components are developed using MaterialUI, Bootstrap, Tailwind CSS, Formik, and Yup.
- Tech Involved: **ReactJS, MaterialUI, Bootstrap, Tailwind CSS, Formik, Yup, Postman, and GitHub**.

KNOVATEK
Software Developer - MERN (Intern)   *Jan 2022 - June 2022*

- Developed frontend from designs using React.js. Designed overall component tree and routing. Redux was implemented to handle the global state. Common components are developed using Material UI.
- Designed and developed backend REST APIs in Node.js. Implemented middleware for authentication and authorization. Created postman collection to test and document APIs.
- Tech Involved: **ReactJS, Redux, NodeJS, ExpressJS, MongoDB, MaterialUI, Bootstrap, Postman, GitHub**.

ACHIEVEMENTS

- **1st Rank in GFG College Leaderboard** [Handle]
- **Global Rank: 81 (October Challenge 2021 Division 3) at CodeChef** [Handle]

SKILLS

Languages -   • C • C++ • JavaScript • TypeScript

Tools / Technologies -   • HTML • CSS • ReactJs • Redux • Material UI • Bootstrap • Taiwind CSS • NodeJs • Express • Git • Postman

Database -   • MongoDB

Subjects

- Data Structures and Algorithms • Database Management System • Object Oriented Programming

PROJECTS

Dictionary   [Source Code]

- An application where the user first login or signup and then can add, edit, and delete words. In the application, the user can also search for a particular word from a list of words.
- Tech Used: **ReactJS, Redux, NodeJS, ExpressJS, MongoDB, MaterialUI, Bootstrap, Postman, GitHub**
