

PROFESSIONAL SUMMARY

Frontend Developer with **3 years of experience** building responsive and high-performance web applications using **React.js, Next.js, and Angular.js**. Skilled in creating reusable UI components, optimizing performance, and integrating APIs. Focused on clean code, scalability, and delivering smooth user experiences.

SKILLS

Languages: JavaScript, TypeScript, HTML, CSS, C++, SQL
Frontend: React.js, Next.js, Angular.js, Redux, Tailwind CSS, Material UI, Bootstrap, Sass, Chart.js, Lodash, jQuery
Backend: Node.js, Express.js, REST APIs
Database: MongoDB, MySQL
Cloud: AWS, AWS Lambda
Tools: Git, Bitbucket, Postman, Figma, VS Code, Mermaid, React Markdown, Usermaven
Testing: Jest, React Testing Library, Selenium

WORK EXPERIENCE

Frontend Developer

July 2024 - Present

Modgenics Technology

Noida

- Delivered 20+ client proposals within tight deadlines by prioritizing tasks and reverse planning, improving delivery efficiency by 25%.
- Boosted application performance by 30–40% by optimizing React components, API calls, and database queries.
- Built and maintained 50+ reusable UI components using React, Tailwind CSS, and Material UI, reducing development time by 20%.
- Collaborated with cross-functional teams of 5–8 members to design and deliver scalable web applications.
- Led technical discussions with 10+ clients to gather business requirements, reducing project turnaround time by 30%.
- Enhanced page load speed by 35% using lazy loading, code splitting, and API optimization techniques.

Junior Frontend Developer

July 2023 to June 2024

Modgenics Technology

Noida

- Fixed 30+ UI and functionality bugs, improving application stability
- Collaborated with senior developers to maintain clean, reusable, and scalable code structure.
- Improved UI responsiveness and cross-browser compatibility for multiple modules.

PROJECTS

Medifactum – AI-powered Legal Data Extraction Platform

[Link to Website](#)

- Built client management module with create, edit, assign users, and case metadata handling.
- Implemented secure document upload and processing workflow.
- Integrated AWS Lambda for automated extraction of structured findings from uploaded legal documents.
- Developed dynamic findings dashboard with filtering (Medical, Legal, Functional, Economic, Diagnostic).
- Enabled users to update AI-generated findings, add observations, and decisions.
- Implemented audit logs to track all user activities for compliance and traceability.
- Designed responsive UI with reusable components for scalable case workflows.
- Tech Used: React.js, TypeScript, Next.js, Angular.js, Node.js, Express.js, AWS Lambda, REST APIs, Tailwind CSS, MongoDB.

Investment Management Platform - DueDash

[Link to Website](#)

- At DueDash, we provide tailored solutions designed to address every stage of the investment lifecycle, empowering our users to streamline workflows, collaborate efficiently, and make data-driven decisions. Our modular platform adapts to diverse needs, creating a unified ecosystem where functionality and insights converge for impactful outcomes.
- Comprehensive tools for startup ventures, investors, and intermediaries.
- Secure data rooms, SPV management, deal origination, and collaboration tools.
- Tailored solutions to match your investment or fundraising goals.
- Tech Used: React.js, TypeScript, Next.js, Angular.js, Node.js, Express.js, AWS Lambda, REST APIs, Material UI, MongoDB, Git.

EDUCATION

2019 - 2023 B.Tech in Information Technology, **Indian Institute of Information Technology (IIIT), Sonapat** (CGPA: 8.7/10)
